Air, Land and Sea – Bot Rules

Basics

Bot is always the **1st player** on every round.
Bot is dealt **6 Face Down cards**, plays one from the top of their hand, **face up, into a matching theatre**–unless the card forces the Bot to **withdraw.***

Withdrawal*

If Bot tries to **play or move a 4th card** into their side of a theatre, they return that card to their hand and withdraw—unless Bot can **avert withdrawal**.

Bot may avert withdrawal if their **Redeploy**, **Aerodrome** or **Airdrop** card could negate the withdrawal condition, **observing Bot Priority and Choice.****

Blockade Returned and May

Bot observing a Blockade card limitation will instead place the 'discard' card face down, in an adjacent chosen theatre:- Returned cards go to the bottom of the hand:- Bot will read 'may' as 'must' when resolving an action.

Bot Priority and Choice **

The card being **placed** or the card that **causes** an effect is the **'Reference Card'** for Bot theatre choice.

When given a 'choice' Bot will select the **adjacent theatre** to **'your'** right of the **'Reference Card'**; if not available, then to **'your'** left of the **'Reference Card'**, then, if legal, its own theatre or finally a non-adjacent theatre. If **stacked**, Bot will choose the **1st available** card in that stack. Bot will not move a card from and to the same place.

Secondary card effects are played after a card has been played or flipped as per box rules. An ineffective, negative or a choice that **eventually** forces Bot withdrawal must still be played.

Bot card Flip priority is:

Their Face Down to Face up.
Your Face up to Face Down.
Your Face Down to Face up.
Their Face up to Face Down.

Bot Difficulty Enhancement

If you find it too easy to win:

1). If Bot loses 3 theatres: Bot takes the top 2 cards from the battle deck and plays them, face up, on to their matching theatres without restriction.
Or
If Bot loses 2 theatres: Bot plays the top card from the battle deck, face up, on to the matching theatre without restriction.

Do not resolve the Difficulty Enhancement cards' secondary effects. Do not count the Difficulty Enhancement cards toward the Bot withdrawal number.

Otherwise:

2). Play by Air, Land and Sea – **Semiautonomous Bot** Rules. →

Air, Land and Sea – Semiautonomous Bot Rules

Basics

Bot is always the **1st player** on every round.
Bot is dealt **6 Face Down cards**, plays one from the top of their hand, **face up, into a matching theatre**–unless the card forces the Bot to **withdraw.***

Withdrawal*

If Bot tries to **play a 4th card** into their side of a theatre, they return that card to their hand and withdraw—unless Bot can **avert withdrawal**.

Bot may avert withdrawal with card that could negate the withdrawal condition, **observing Bot Priority and Choice.****

Bot Priority and Choice**

When resolving secondary effects: Bot reads 'may' as 'you must' make the best decision for them.
